

BRIGHTON TRIP

This year the students of 3-B, 4-B and three teachers went to a trip to Brighton.

We had a lot of fun and we did a lot of activities, but there were some setbacks: one of them was that , on the first day , in Brighton there was a marathon and all of the streets were blocked and the families couldn't come for us before 3 o'clock,

One of my favourite activities was the laser zone and the visit to London, London was beautiful and extraordinary , we went into the famous London underground and we saw the Changing of the Guard at Buckingham Palace , but we couldn't climb on the London eye because we didn't have enough time . We went shopping in Oxford Street too.

Throughout the week, we learned a new culture and new things like taking a bus, we needed to control the bus timetable, and we tried new (and horrible) food.

The school divided us in different groups, in my case I went with the Thais, and they were very different.

Another activity that we did was tourism in a very funny way: The photo hunt. This game consisted of taking photos to the different places in the list and the funniest one, would be the winner. Finally we visited the Brighton pier, there were a lot of funny rides.

In this trip we had a lot of lessons and memories, and we'll never forget it.
